## INSPIRE TEACHERS WITH NEW TEACHING APPROACHES

The Irish Education & Training Board (IETB) approved English Language Ireland is long reputed as an international English teaching and learning centre. On accompanying your students this summer, why not make the best use of your time to join ELI's teacher refresher courses? Be inspired by the latest innovative teaching approaches while improving your four languages skills in a natural English speaking environment? *EduTravelBright offers the English Course FREE to teachers accompanying student groups!*

## GREAT VALUE FOR MONEY PROGRAMME FOR PARENTS

Compared to study tours in other English speaking countries (UK, USA, AUS, NZ), our exclusive ELI Junior Language & Activity Programme is a real value for money experience for your children (30% CHEAPER). Ireland is in the EURO zone and the currency has depreciated more than 25% over a year against USD, HKD and GBP. We want to make this programme affordable to families – Learning better English in real life in an English speaking country IS NOT A PRIVILEGE FOR a particular social category.
